

## POWER PRODUCTS

Chip-and-wire hybrid dc/dc converters and filters for military and space applications.

Custom Li Ion battery packs and chargers for medical, commercial, and military applications.

Standard & custom industrial & medical power supplies; EV MCU's, DC/DC converters & compressors that meet IRA guidelines (Made in USA).

High-efficiency, power dense DC/DC converters for telecom, data center, medical and industrial applications.

Lithium Thionyl Chloride (LiSOCl<sub>2</sub>) and Li Ion batteries for industrial, wide temp and high cycle applications.

Rad-hard GaN transistors, ICs, and modules for use in space applications.

Power semiconductors, modules, controllers and diodes for military and aerospace applications.

## VIDEO & COMPUTING

Block cameras, ALPHA series, Lidar, and machine vision for industrial, drone, security markets.

Rad-hard DDR, SSD's, and data recorders for space. Memory and storage products for mil applications.

Long-life LCD panels with ultra-high resolution and sunlight readability for industrial and commercial use.

Embedded computing, all-in-one systems, compute products and ODM solutions for industrial and commercial needs.

Storage and memory solutions used in embedded, portable, rugged, medical, financial and consumer applications.

Global ODM for enterprise-class products like servers & storage systems, cloud compute, wireless and IoT products.

## IoT & CONNECTIVITY

Fabless semiconductor manufacturer serving wireless OEMs: RF, SoM, SoC, Wi-Fi, Bluetooth products

Sensing devices, precision interconnect solutions, connectivity & communication solutions.

## CONTRACT MANUFACTURING

US owned, vertically integrated EMS company serving Tier 1 and 2 OEMs in medical, military and commercial markets.

Largest global EMS company - from PCBA to turnkey box-build, logistics, repair services and global distribution.

EMS facility in Tijuana, Mexico, specializing in PCBA, turnkey box-build, logistics, repair services, and global distribution.

Thailand-based independent EMS and OSAT provider.

## About Us...

Since 1973, Varigon Inc. has been a leading manufacturer's rep firm, helping thousands of electronics companies complete their product designs on time, and with minimal obstacles, from component selection to production. Our traditional focus has been on **Components and Subsystems**, mainly providing **Power** and **Human Machine Interface** solutions to specific high value markets and applications that include medical, military, and industrial sectors. Varigon proudly represents the global leaders in each of our product categories.

In 2006, Varigon added **Contract Manufacturing** services to help our customers with their OEM and ODM electronics manufacturing needs. Our CM partners provide DFM and engineering services, local and global manufacturing options, and range from PCBA to full turnkey and end to end logistics services. Varigon represents notable contract manufacturers such as 5 different groups of Foxconn, Hana Microelectronics Group, and SMTC Manufacturing.

### Los Angeles Office

2659 Townsgate Road #205  
Westlake Village, CA 91361
